

## birds of prey (wolfish 2002)

we made love there in a meadow close to Venice  
the big entrance the large jungle our palace  
feel the nature of this moment feel the silence  
so we covered under branches a bit frightened

Watch those birds of prey  
and I got no - got no - got no truth for sale  
and I got no - got no - nothing to explain...

so we wandered - hand in hand - through the hours  
no direction - like two raindrops in a shower  
it was wider than the horizon than the ocean  
it was closer than our heartbeats than our passion

Watch those birds of prey  
and I got no - got no - got no truth for sale  
and I got no - got no - nothing to explain...

seconds of sadness come back every night  
I searched the whole jungle for someone to stay with  
and the seasons that came took the details away  
nevertheless it is a part of you and me  
as long as we will live I'll feel your mark on my brow

Watch those birds of prey  
and I got no - got no - got no truth for sale  
and I got no - got no - nothing to explain...
